

Humidity Calibration Kit For All Humidity Sensors

The Ideal Companion to the Humidity Test Kit

Contents:

- ⊗ 2 X Humidity sensor type MK 33
- ⊗ 2 X Humidity sensor type P 14
- ⊗ 1 X Humidity reference cell (saline solution saturated with MgCl₂)
- ⊗ 1 X Humidity reference cell (saline solution saturated with NaCl)
- ⊗ 1 X Sensing tube suitable for the analog experimental board
- ⊗ 1 X Technical documentation

Technical Documentation table of contents:

- Features, functional principle
- Special notes
- Carrying out the calibration process
- Overview of saturated saline solutions
- Data sheet MK 33
- Data sheet P 14

Price Humidity Calibration Kit: 360.- CHF

Price Calibration Kit: 360.- CHF

Bulk Offer Both Together: 650.- CHF
